SENZAFINE

Poliform

Poliform

I cataloghi della serie tecnica sono un compendio dell'universo progettuale di Poliform. Mostrano nel dettaglio tutte le possibilità compositive e stilistiche offerte dai sistemi attraverso la descrizione delle componenti strutturali, dell'attrezzatura disponibile e dell'infinita varietà di finiture. Elementi che combinati tra loro realizzano proposte complete dove la libertà di progettare è totale.

The catalogues in the technical series are a compendium of the Poliform design universe. They give a detailed view of all the compositional and stylistic possibilities offered by the systems through the description of the structural components, available equipment and infinite variety of finishes. Elements that, when combined, create complete solutions with a free rein for design.

SENZAFINE

Senzafine è un sistema modulare da interpretare liberamente come armadio o cabina armadio. Nella versione armadio, Senzafine è caratterizzato da un'ampia scelta di ante – battenti, scorrevoli o complanari – sempre contraddistinte da linee essenziali e finiture ricercate. La cabina armadio, leggera ed elegante con i fianchi telaio e in vetro, è solida con i fianchi da 35 mm. I volumi di contenimento a vista rendono protagonisti la struttura e le attrezzature.

Senzafine is a modular system which can be freely interpreted when creating wardrobes or walk-in closets. In the wardrobe version, Senzafine features a wide selection of doors - leaf, sliding or coplanar - defined by clean lines and sophisticated finishes. The light and elegant walk-in closet with frame and glass sides, is sturdy with 35 mm thick side panels. The open-plan storage compartments highlight the structure and equipment.

Module widths - depth 17 1/4"

Larghezze moduli - profondità 584 mm
Module widths - depth 23"

Altezze
Heights

Calcolo dimensioni cabina armadio

Per ottenere la larghezza totale, aggiungere alla somma dei moduli mm 35 per ogni fianco legno e mm 25 per ogni fianco telaio o vetro.

Calcolo dimensioni armadio

Per ottenere la larghezza totale, aggiungere alla somma dei moduli mm 25 per ogni fianco. I fianchi laterali hanno diversi spessori in riferimento alla variante di finitura.

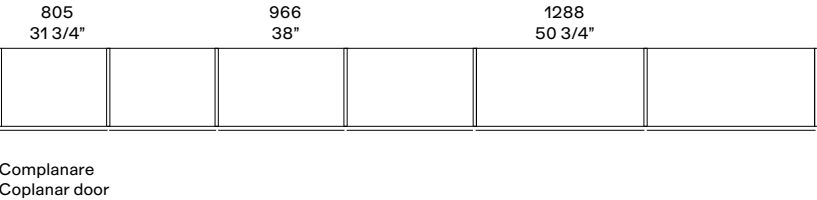

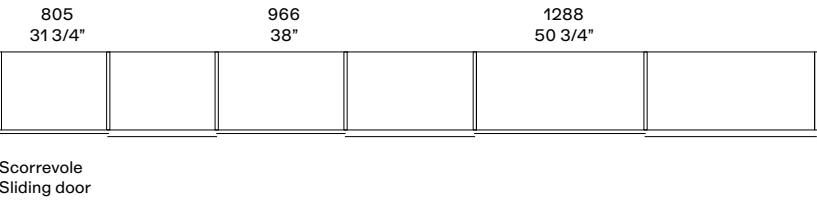

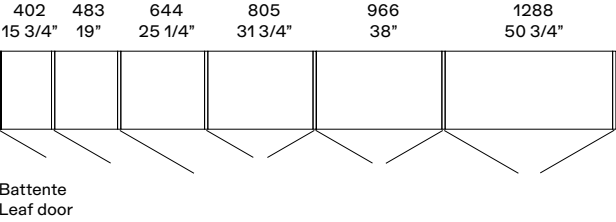

Calculating walk-in closet dimensions

To obtain the total width, add to the sum of the columns 1 1/2" for each wooden side and 1" for each frame or glass side.

Calculating wardrobe dimensions

To obtain the total width, add to the sum of the columns 1" for each side. Lateral sides have different thicknesses depending on the finish variant.

Armadio - tipologie di apertura
Wardrobe - opening typologies

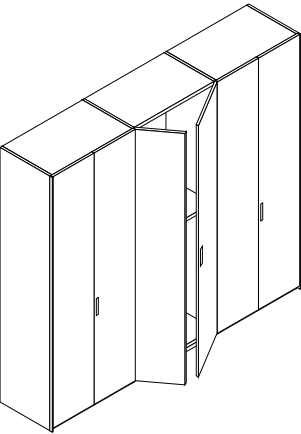

Le larghezze indicate sulle colonne degli armadi includono un fianco di spessore mm 25.
The widths indicated on the wardrobe columns include a 1" thick side panel.

TIPOLOGIE DI APERTURA
OPENING TYPOLOGIES

Battente
Leaf door

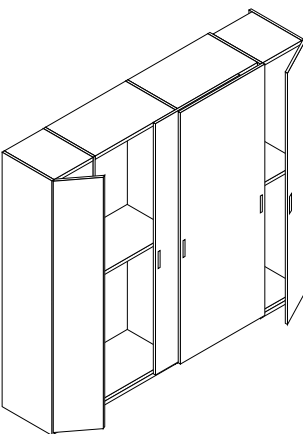

Colonna I 402, 483, 644 anta singola, colonna I 805, 966, 1288 anta doppia. Tutte le ante battenti sono fornite con cerniere ammortizzate.
Unit w 15 3/4", 19", 25 1/4" single door, unit w 31 3/4", 38", 50 3/4" double door. All leaf doors are supplied with soft closing hinges.

Battente e cassetti
Leaf door and drawers

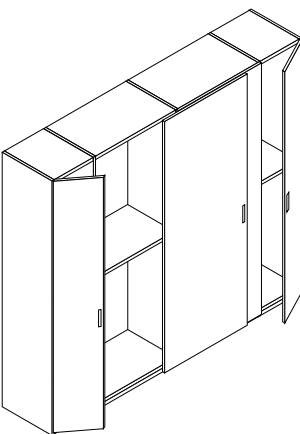

Cassetti ad estrazione totale ammortizzata, da abbinare esclusivamente alle ante battenti, per colonna I 483, 644, 966.
Drawers with full extraction glides and soft closing mechanism, to be combined exclusively with leaf doors, for unit w 19", 25 1/4", 38".

Battente e scorrevole
Leaf and sliding doors

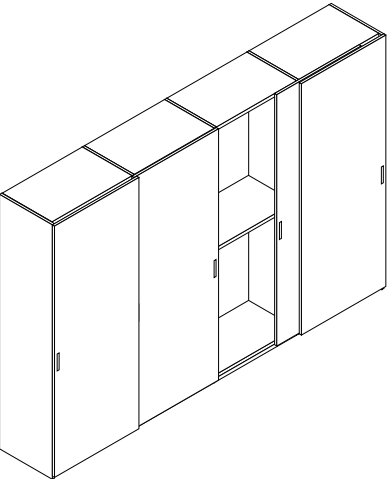

Si possono realizzare armadi con ante apertura battente e scorrevole, non sarà possibile ottenere un perfetto allineamento fra le ante.
Wardrobes can be made with combination of leaf and sliding doors, but it will not be possible to achieve perfect doors alignment.

Battente e complanare
Leaf and coplanar doors

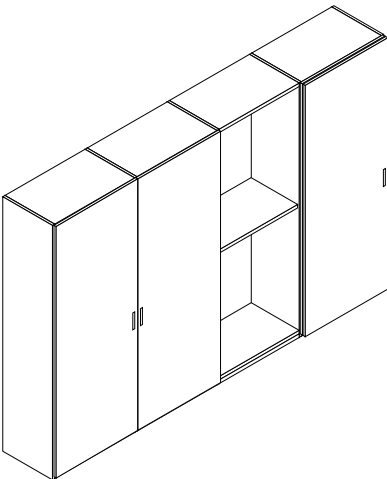

Si possono realizzare armadi con ante apertura battente e complanare. Le ante, entrambe dello stesso spessore, sono perfettamente allineate.
Wardrobes with combination of leaf and coplanar doors can be made. The doors, of the same thickness, are perfectly aligned.

Scorrevole
Sliding door

Colonna I 805, 966, 1288. Ante scorrevoli fornite con sistema di scorrimento ammortizzato.
Unit w 31 3/4", 38", 50 3/4". Sliding doors supplied with soft closing system.

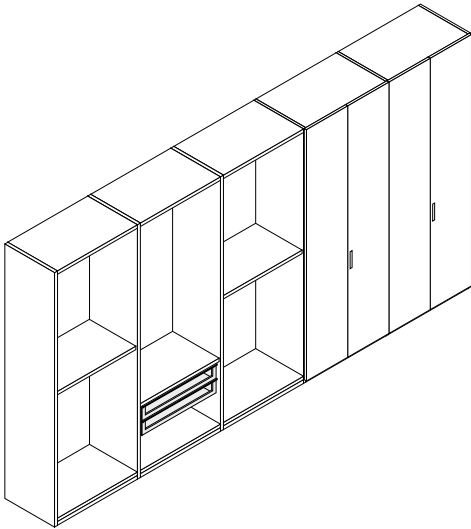

Complanare
Coplanar door

Colonna I 805, 966, 1288. Ante complanari fornite con sistema di scorrimento ammortizzato.
Unit w 31 3/4", 38", 50 3/4". Coplanar doors supplied with soft closing system.

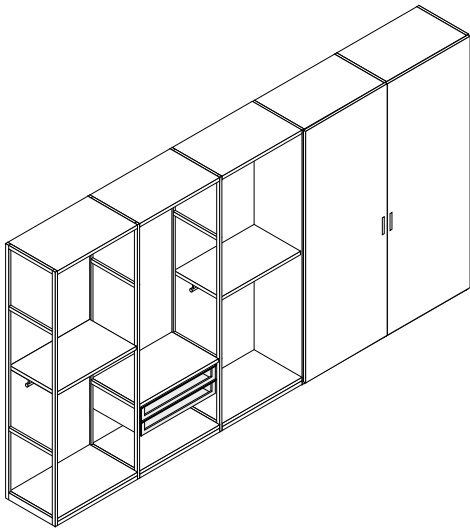

SOLUZIONI COMPOSITE
CONFIGURATION SOLUTIONS

Cabina armadio e armadio battente
Walk-in closet and leaf door wardrobe

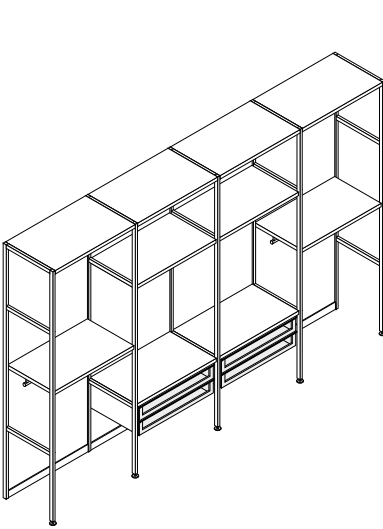

Cabina armadio con fianchi legno. Armadio con ante battenti e fianco laterale legno.
Walk-in closet with wooden sides. Wardrobe with leaf doors and lateral wooden side.

Cabina armadio e armadio complanare
Walk-in closet and coplanar door wardrobe

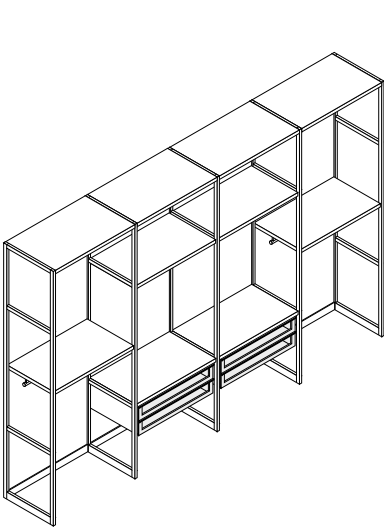

Cabina armadio con fianchi telaio. Armadio con ante complanari e fianco laterale legno.
Walk-in closet with frame sides. Wardrobe with coplanar doors and lateral wooden side.

Cabina armadio senza basamento
Walk-in closet without base

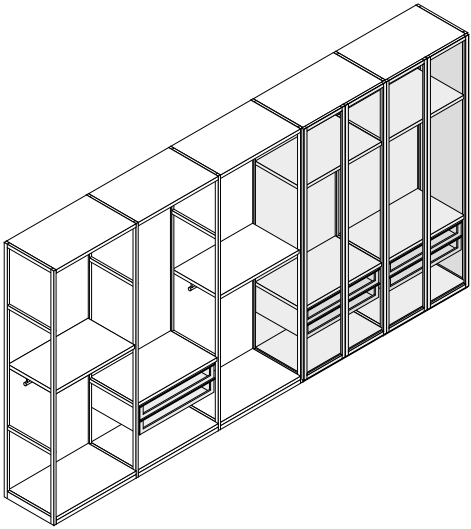

Cabina armadio senza basamento e fianchi con piedini, è necessario un traverso posteriore in corrispondenza dello schienale.
Walk-in closet without base and sides with feet; a rear crossbar is required at the back.

Cabina armadio senza basamento con fianchi telaio, è necessario un traverso posteriore in corrispondenza dello schienale.
Walk-in closet without base with frame sides; a rear crossbar is required at the back.

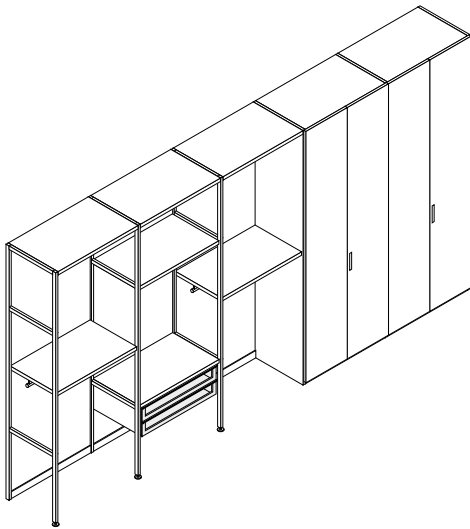

Cabina armadio e armadio battente
Walk-in closet and leaf door wardrobe

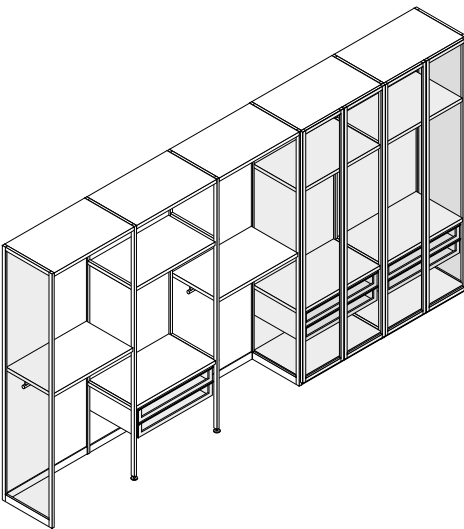

Cabina armadio con fianchi telaio. Armadio con ante battenti e fianco laterale vetro.
Walk-in closet with frame sides. Wardrobe with leaf doors and lateral glass side.

Si sconsiglia l'accostamento tra cabina armadio e armadio scorrevole per la diversa profondità tra i fianchi laterali dell'armadio e quelli della cabina armadio.
It is not recommended to combine a walk-in closet with a sliding wardrobe due to the difference in depth between the sides of the wardrobe and those of the walk-in wardrobe.

Cabina armadio senza basamento e armadio
Walk-in closet without base and wardrobe

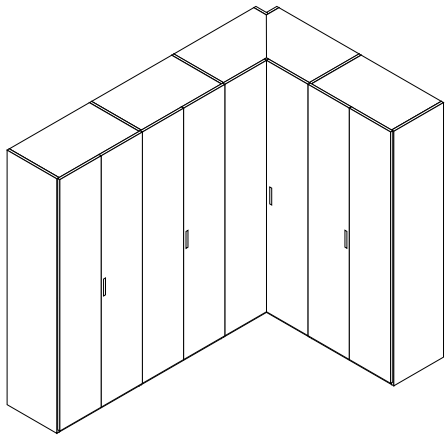

Cabina armadio senza basamento e fianchi con piedini. Armadio con fianco laterale legno.
Walk-in closet without base and sides with feet. Wardrobe with wooden side.

Cabina armadio senza basamento con fianco vetro e fianchi con piedini. Armadio con fianco laterale vetro.
Walk-in closet without base, with glass side and side with feet. Wardrobe with lateral glass side.

ANGOLARI E TERMINALI
CORNERS AND END UNITS

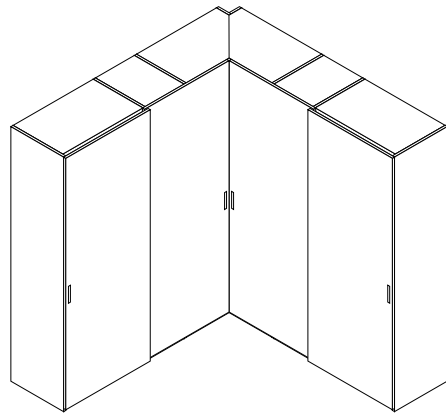

Angolare battente
Leaf corner element

Anta battente I 478. L'elemento angolare battente può essere attrezzato con ripiani (escluso ripiano vetro) e tubi appendiabiti.

With leaf door w 18 3/4". Leaf corner element can be equipped with shelves (except glass shelf) and hanging rails.

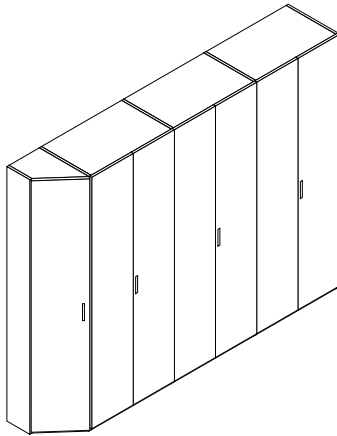

Angolare scorrevole
Sliding corner element

Anta scorrevole I 982. L'elemento angolare scorrevole può essere attrezzato con ripiani (escluso ripiano vetro) e tubi appendiabiti.

With sliding door w 38 3/4". Sliding corner element can be equipped with shelves (except glass shelf) and hanging rails.

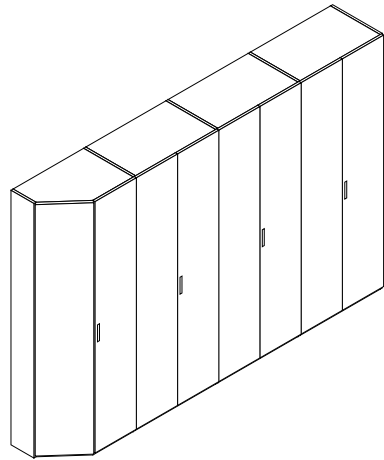

Terminale singolo
Single end unit

Anta battente I 478. L'elemento terminale singolo può essere attrezzato con ripiani in nobilitato 7 finiture.

With leaf door w 18 3/4". Single end unit can be equipped with shelves in melamine 7 finishings.

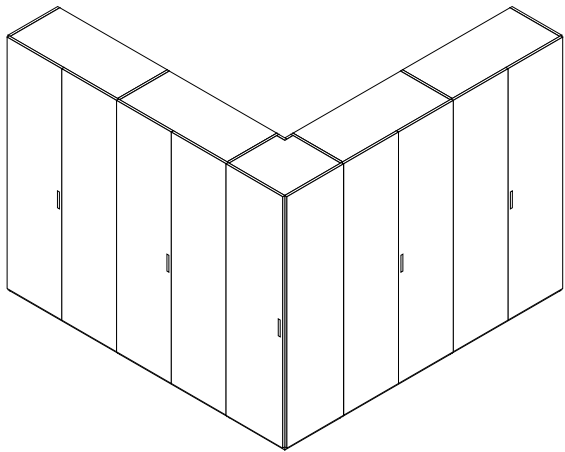

Terminale doppio
Double end unit

Ante battenti I 478. L'elemento terminale doppio può essere attrezzato con ripiani in nobilitato 7 finiture e tubi appendiabiti.

With leaf doors w 18 3/4". Double end unit can be equipped with shelves in melamine 7 finishings and hanging rails.

Angolare aperto
Open corner element

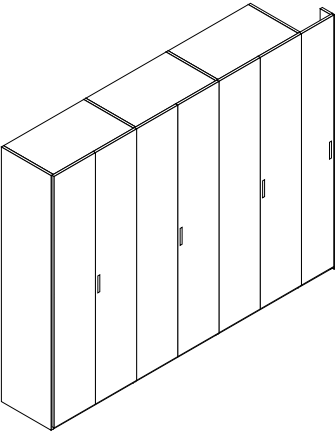

Anta battente I 639 + anta fissa. L'elemento angolare aperto può essere attrezzato con ripiani in nobilitato 7 finiture e tubi appendiabiti.

With leaf door w 25 1/4" + fixed door. Corner open element can be equipped with shelves in melamine 7 finishings and hanging rails.

SOLUZIONI SPECIALI
SPECIAL SOLUTIONS

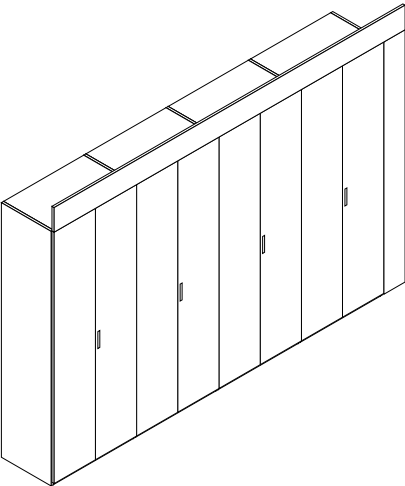

Anta battente apribile uso fascia
Opening leaf door as filler

Anta battente fornita con zoccolino verniciato opaco applicato sotto l'anta, cerniere dx o sx e fianco speciale a muro. Può essere montata a filo anta o arretrata con raddoppio del fianco speciale.

Leaf door supplied with mat lacquered plinth, fixed to the door, right or left hinges, wall stop profile. It can be mounted flush with the door or backward by doubling the special side.

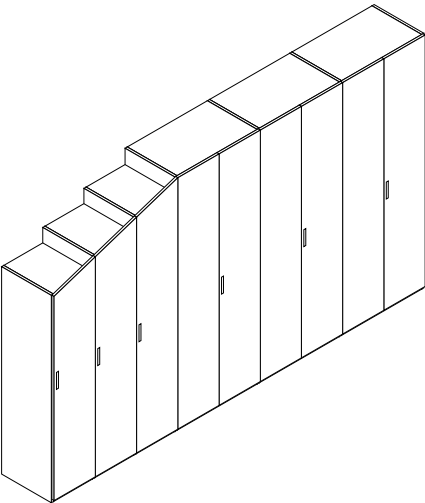

Fascia di tamponamento
Filler

Fasce laterali e superiori, l da 30 a 600 h fino a 2910. Montaggio a filo struttura, fascia superiore sconsigliata per coplanare. Montaggio a filo anta, fascia laterale sconsigliata per scorrevole, fascia superiore solo per battente.

Side and top fillers, from w 1 1/4" to 23 1/2" h up to 114 1/2". Flush mounting with structure, top filler not recommended for coplanar opening. Flush mounting with door, side filler not recommended for sliding doors, top filler only for leaf doors.

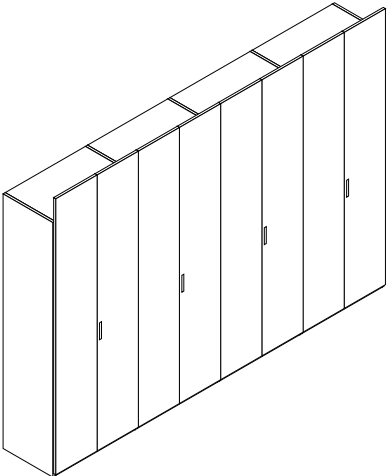

Armadio mansardato
Mansard wardrobe

Armadio mansardato realizzabile solo con colonne battenti singole. Cambio in altezza delle strutture e ante con taglio inclinato.

Mansard wardrobe only available with single leaf columns. Height adjustment of the structures and doors with angled cut

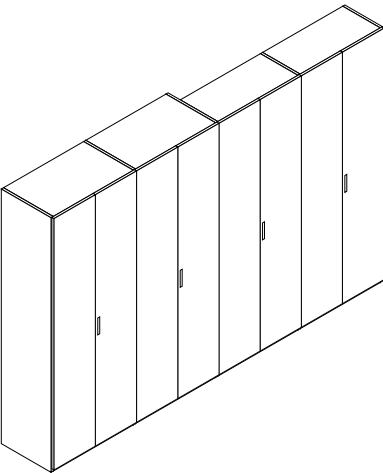

Anta battente sporgente in altezza
Leaf door protruding in height

Realizzabile solo con ante battenti, le ante possono sporgere al massimo di mm 160 rispetto alla struttura.

Available only with leaf doors, doors may protrude a maximum of 6 1/4" from the structure.

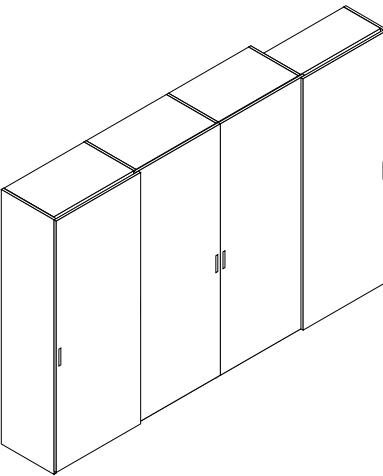

Cambio di profondità armadio battente
Change in depth leaf wardrobe

Si possono realizzare armadi con colonne di diversa profondità con allineamento a filo davanti. Profondità minima della struttura 140 per anta Ego, Plus vetro e Fitted; 120 per altri modelli di anta.

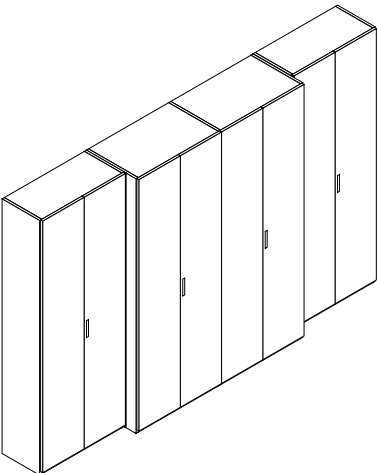

Wardrobes with columns of different depths can have a flush front alignment. Minimum depth of the structure: 5 1/2" for Ego, Plus glass and Fitted doors and 4 3/4" for other door models.

Cambio di profondità armadio scorrevole
Change in depth sliding wardrobe

Si possono realizzare armadi con colonne di diversa profondità (o con le due profondità di serie) con allineamento a filo davanti. Profondità minima della struttura 394.

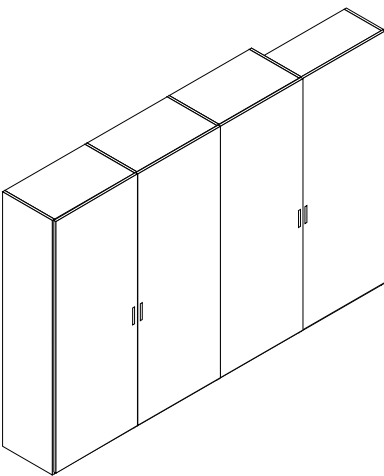

Wardrobes can be made with columns of different depths (or with the two standard depths) with flush front alignment. Minimum structure depth 6 1/4".

Si possono realizzare armadi con colonne di diversa profondità (o con le due profondità di serie) con allineamento posteriore e raddoppio del fianco.

Wardrobes can be made with columns of different depths (or with the two standard depths) with rear alignment and double sides.

Cambio di profondità armadio coplanare
Change in depth coplanar wardrobe

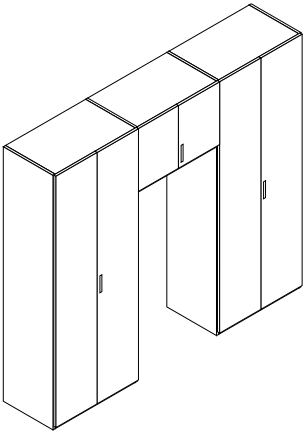

Si possono realizzare armadi con colonne di diversa profondità (o con le due profondità di serie) con allineamento a filo davanti. Profondità minima della struttura 394.

Wardrobes can be made with columns of different depths (or with the two standard depths) with flush front alignment. Minimum structure depth 15 1/2".

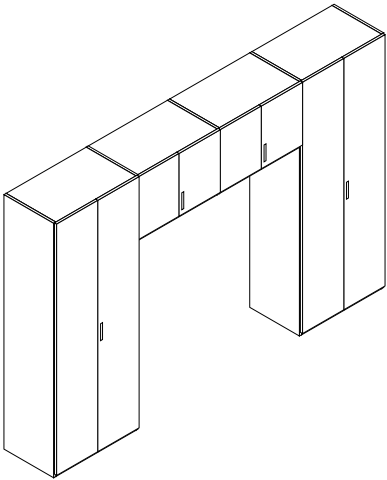

SOLUZIONI SPECIALI
SPECIAL SOLUTIONS

Armadio ponte
Bridge wardrobe

Armadio con colonna singola ponte, larghezza massima 1263, ante battenti disponibili in 4 altezze. La struttura delle colonne ponte può essere fissata solo ai fianchi legno.

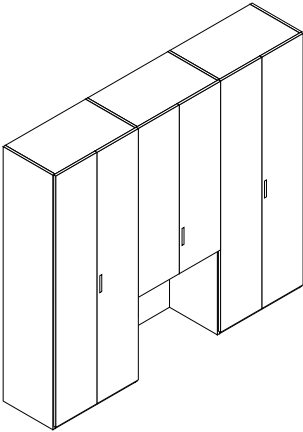

Wardrobe with single bridge column, maximum width 49 3/4", leaf doors available in 4 heights. The structure of the bridge columns can only be fixed to the wooden sides.

L' armadio con due o più colonne ponte accostate necessita la traversa sottoponte rinforzata, larghezza massima 2229.

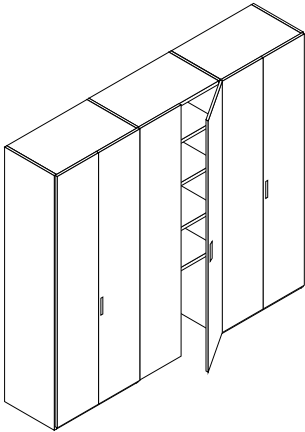

Wardrobe with two or more side-by-side bridge columns require a reinforced under-bridge crossbar, maximum width 87 3/4".

Armadio con vano senza basamento
Wardrobe with compartment without plinth

Colonna con anta battente parziale e vano senza basamento con schienale a terra. Larghezza massima 1263, realizzabile solo con fianchi laterali legno.

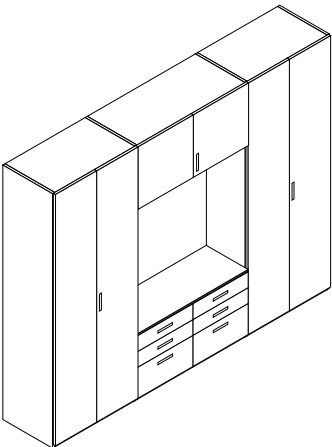

Column with partial leaf door and compartment without plinth with floorstanding back panel. Maximum width 49 3/4", only available with wooden sides.

Colonna con anta battente a tutta altezza, fornita con zoccolino sotto l'anta, schienale parziale e vano senza basamento. Larghezza massima 1263, realizzabile solo con fianchi laterali legno.

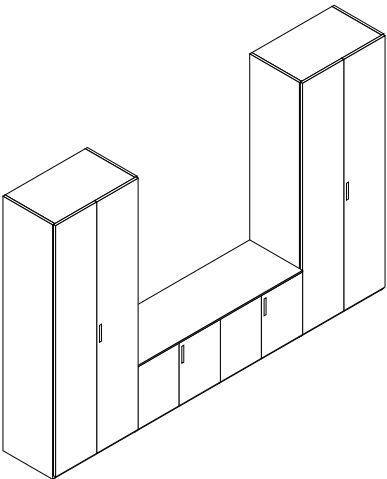

Column with leaf door in full height, supplied with plinth under the door, partial back panel and compartment without base. Maximum width 49 3/4", only available with wooden sides.

Armadio con vano a giorno
Wardrobe with open compartment

Armadio con vano a giorno e pannello avanzato per fissaggio tv, larghezza massima 1263; armadi bassi con cassetti esterni e anta battente di serie.

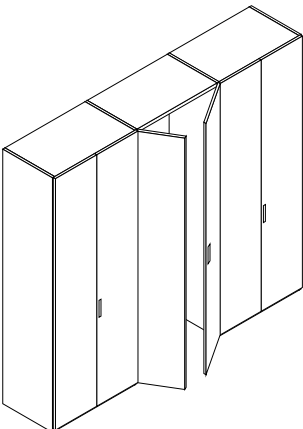

Wardrobe with open compartment and advanced panel for TV mounting, maximum width 49 3/4"; low wardrobes with external drawers and standard leaf door.

Armadio con vano centrale e armadi bassi con anta battente di serie.

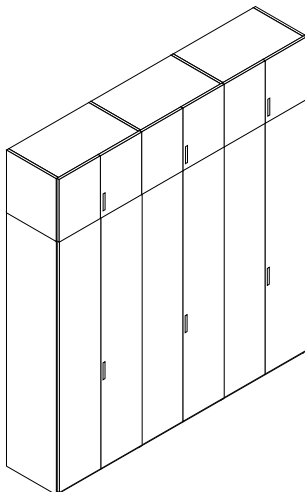

Wardrobe with central compartment and low wardrobes with standard leaf door.

Armadio con passaggio
Wardrobe with passage

Colonne senza basamento e senza schienale ad uso passaggio. Le colonne senza basamento devono essere sempre comprese tra due colonne con basamento.

Units without base and without back panel, used as passage. Columns without base must be always between two columns with base.

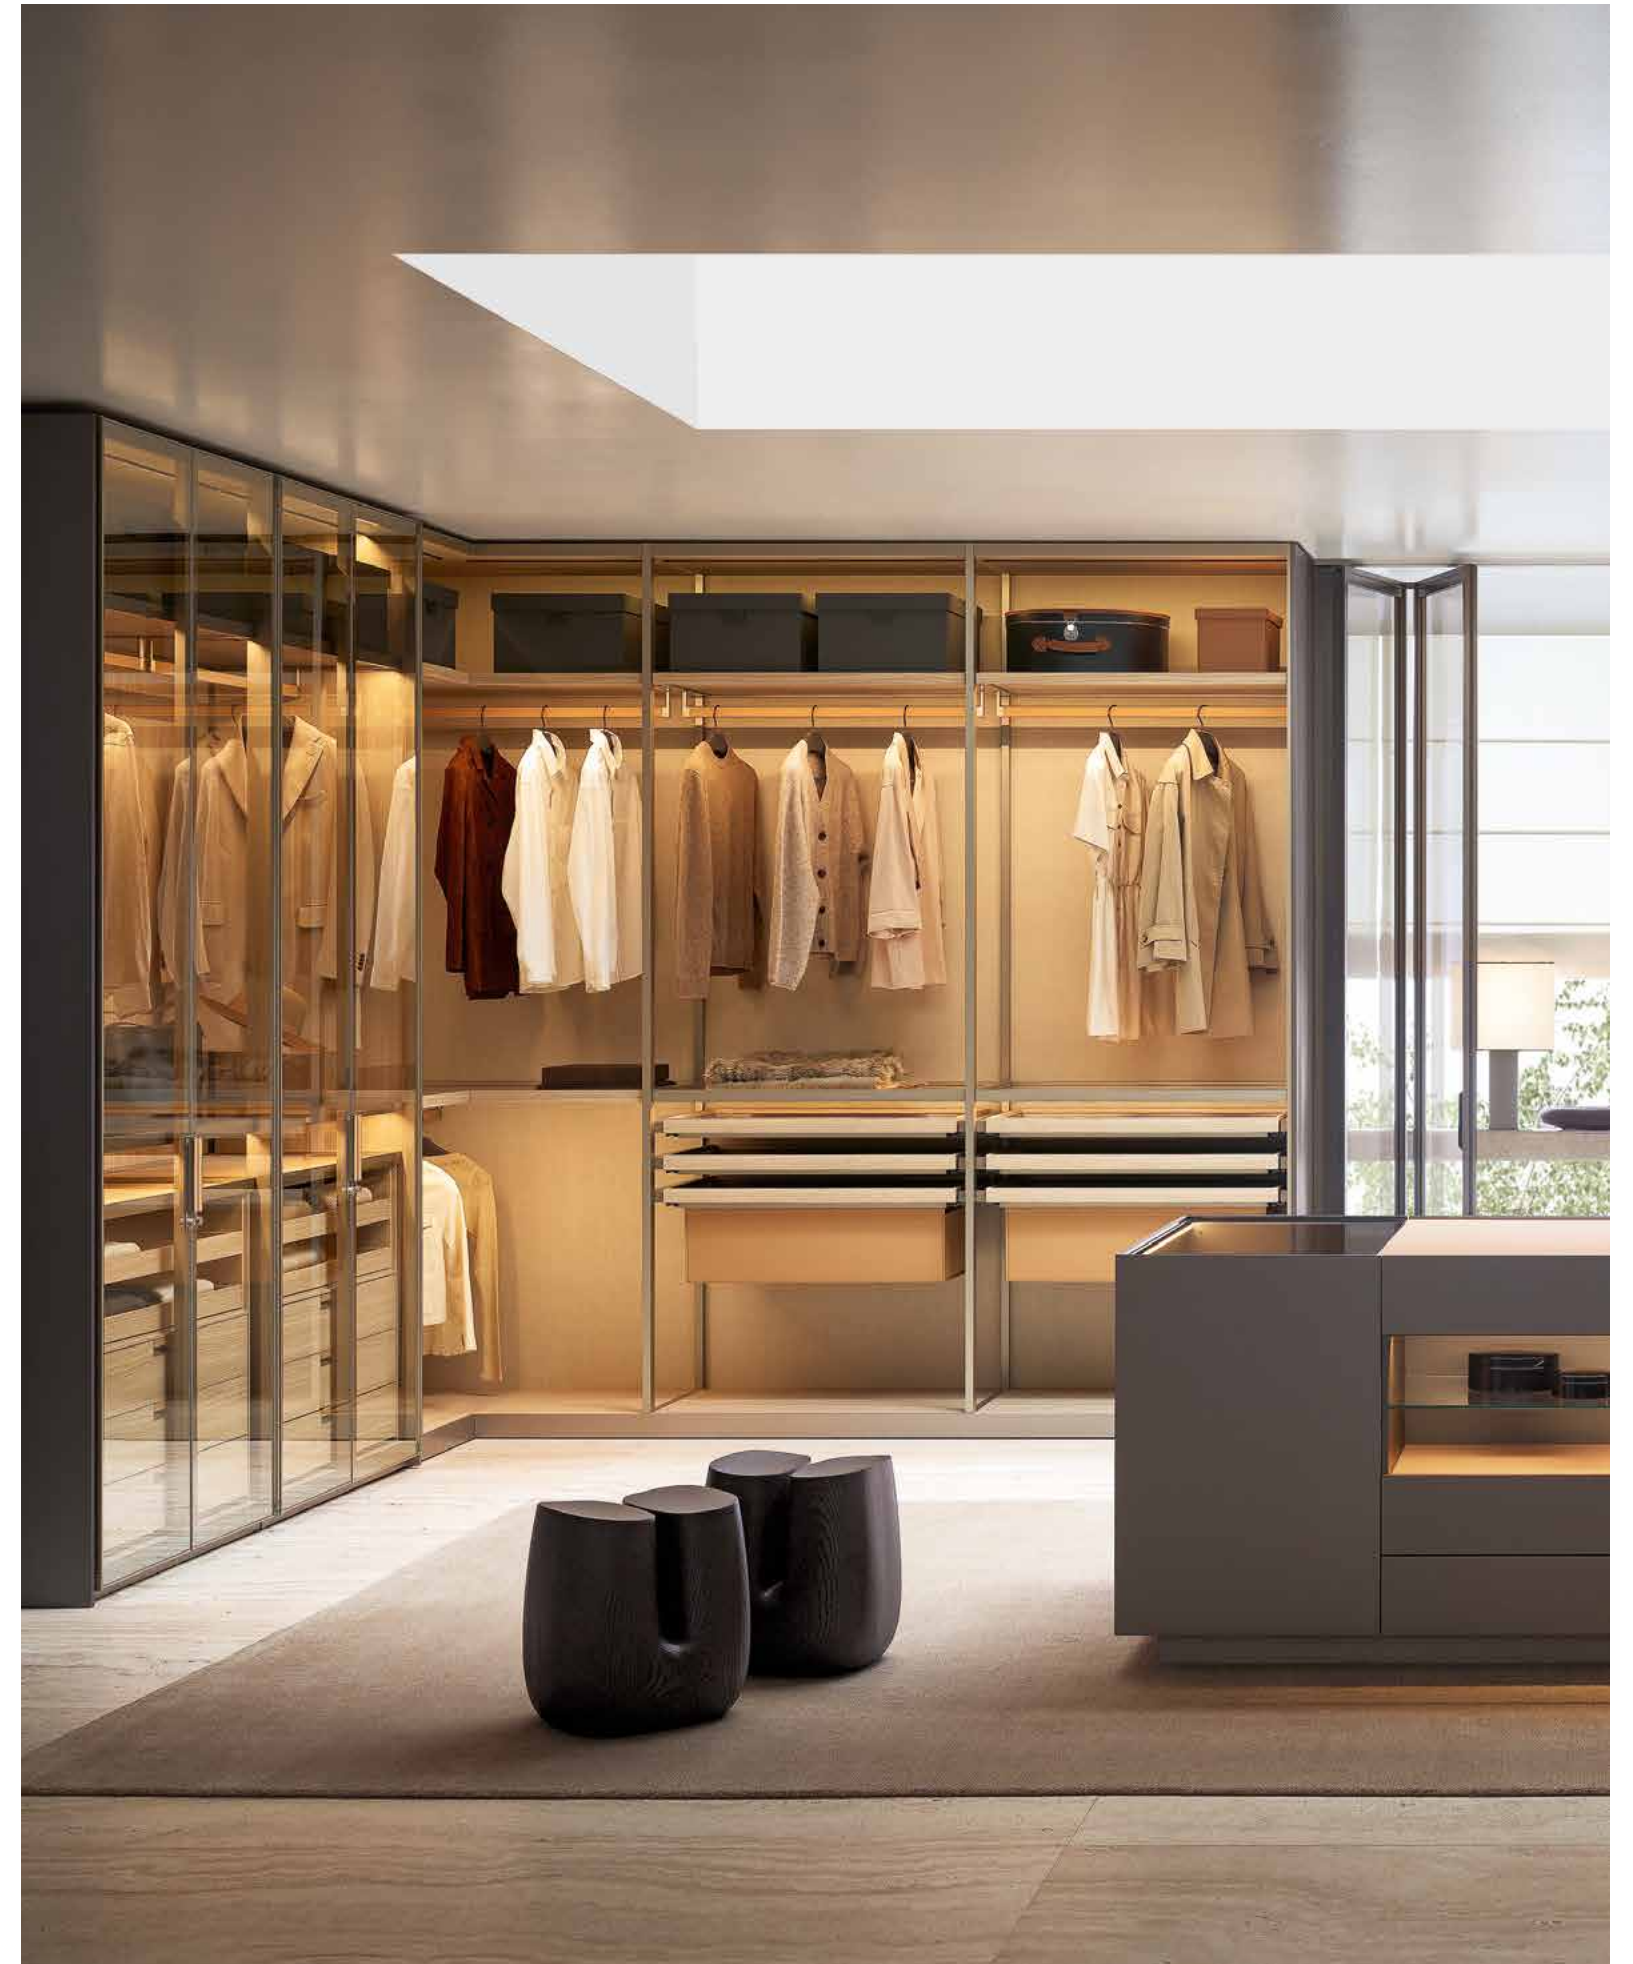

Colonne con altezza di serie ed elementi dell' armadio basso con anta battente di serie o con eventuale riduzione in altezza.

Columns in standard height and units of the low wardrobe with standard leaf door or with eventual customization in height.

STRUTTURA STRUCTURE

Fianchi, schienali, coperchi, basamenti e ripiani costituiscono la struttura di armadi e cabine armadio cui si aggiungono, per gli armadi, diverse tipologie di anta per i tre sistemi di apertura. Gli elementi sono pensati per essere combinati tra loro e dare vita a soluzioni ad hoc per qualsiasi architettura.

Side and back panels, tops, bases and shelves make up structure of the wardrobe and walk-in closet. Different types of doors for the three opening systems are added to the wardrobes. The elements have been designed to be combined and allow for ad hoc solutions in any room.

FIANCHI
SIDES

- 1

Fianco legno
Spessore 35 per cabina armadio.
Spessore 25 per armadio; se utilizzato come fianco laterale viene fornito con il profilo che segue la finitura dell'anta. Nobilitato 7 finiture.
- 2

Fianco telaio
Spessore 25 per cabina armadio e per armadio con ante apertura battente. Alluminio verniciato opaco.
- 3

Fianco con piedino
Spessore 25 per cabina armadio. Alluminio verniciato opaco.
- 4

Fianco vetro
Spessore 25 per cabina armadio e per armadio con ante apertura battente. Vetro 5 finiture con telaio in alluminio verniciato opaco.
- 5

Fianco laterale per armadio
- Spessore 25, fianco con profilo, lato esterno in laccato opaco colori, laccato lucido colori, laccato metallico colori, essenza, specchio bianco (sp 25+4); lato interno in nobilitato 7 finiture.
- Spessore 30 (15+15) fianco accoppiato, esterno in laccato opaco colori, laccato lucido colori, laccato metallico colori, essenza e nobilitato 7 finiture (per anta Sand e Canvas); interno in nobilitato 7 finiture.
- Spessore 31 (15+16) fianco accoppiato, esterno tecnocover grain e tessuto, interno in nobilitato 7 finiture.
- Spessore 33 (15+18) fianco accoppiato, esterno in cuoio, interno in nobilitato 7 finiture.

- 1

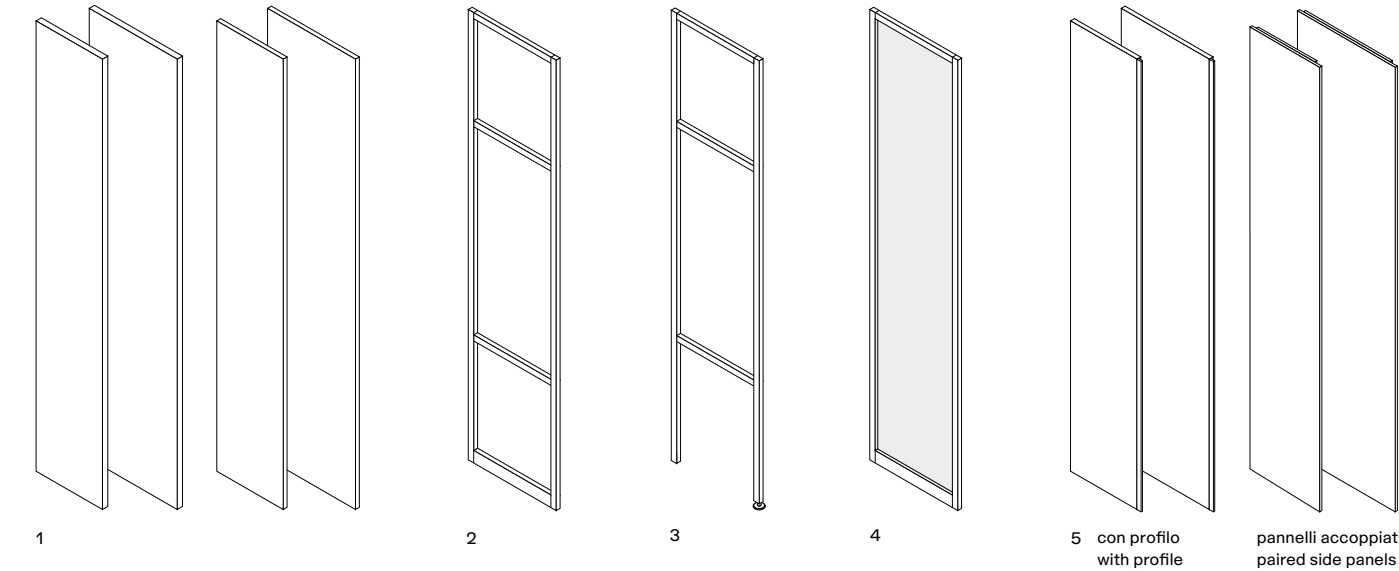

Wooden side
Thickness 1 1/2" for walk-in closet.
Thickness 1" for wardrobe; if it used as lateral side it is supplied with profile matching the door finishing.
Melamine in 7 finishings.
- 2

Frame side
Thickness 1" for walk-in closet and wardrobe with leaf doors. Mat painted aluminium.
- 3

Side with foot
Thickness 1" for walk-in closet. Mat painted aluminium.
- 4

Glass side
Thickness 1" for walk-in closet and wardrobe with leaf doors.
Glass in 5 finishings with frame in aluminium mat painted.
- 5

Lateral side for wardrobe
- Thickness 1", side with profile, external side in mat lacquer colours, glossy lacquer colours, metal lacquer colours, wood and white mirror (th 1"+1/4"); internal side in melamine in 7 finishings.
- Thickness 1 1/4" (1/2"+1/2") paired side, exterior in mat lacquer colours, glossy lacquer colours, metal lacquer colours, wood and melamine 7 finishings (for Sand and Canvas door); interior in melamine in 7 finishings.
- Thickness 1 1/4" (1/2"+3/4") paired side, exterior in tecnocover grain and fabric; interior in melamine in 7 finishings.
- Thickness 1 1/4" (1/2"+3/4") paired side, exterior in hide; interior in melamine in 7 finishings.

Per i fianchi sono possibili riduzioni in altezza e profondità;
escluso in profondità fianco telaio, fianco con piedino e fianco vetro.

For sides customizations in height and depth are possible,
except cuts in depth for frame side, side with foot and glass side.

ANTE E MANIGLIE DOORS AND HANDLES

Senzafine offre diverse ante – dalle più essenziali alle più esclusive, rivestite in tessuto, cuoio o tecnocover grain – da combinare con le tre tipologie di apertura. Nelle ante con maniglia, questo elemento è al contempo accento estetico e dettaglio funzionale. Di diverse forme e dimensioni, incassate o applicate, a contrasto o tono su tono, le maniglie sono disponibili anche rivestite nella stessa finitura dell'anta.

Senzafine offers a range of doors, from the most understated to the more exclusive versions upholstered in fabric, leather or Tecnocover Grain, designed to pair with the three opening systems. On doors with handles, the handle serves as both a design feature and a functional element. Available in different shapes and sizes, recessed or surface-mounted, contrasting or tone-on-tone, the handles can also be finished in the same material as the door.

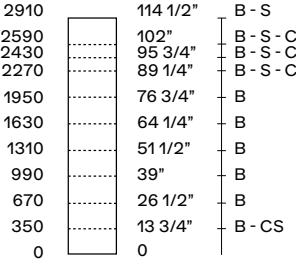

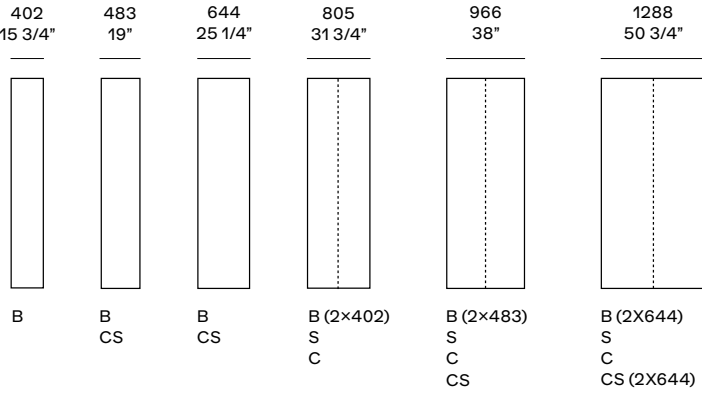

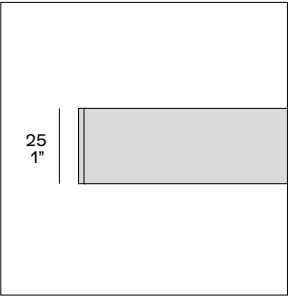

Larghezza 1288 scorrevole non disponibile per h 2910.
 Larghezza 1288 scorrevole solo con maniglia Rail.
 Fianchi laterali non disponibili nella stessa finitura
 dell'anta, per fianchi in tinta utilizzare il laccato opaco
 o lucido.

Width 50 3/4" sliding not available for h 114 1/2".
 Width 50 3/4" sliding available only with Rail handle.
 Lateral sides not available in the same finish of the
 door, for sides in matching colours use the mat or
 glossy lacquers.

VANI ATTREZZATI EQUIPPED OPEN COMPARTMENTS

Il sistema Senzafine si completa con una serie di elementi pensati per arricchire, anche visivamente, l'area guardaroba. Con l'elemento vanity e le soluzioni a giorno con boiserie si creano nicchie da dedicare alla cura di sé. Le colonne a giorno Daytime interrompono la sequenza di armadi chiusi con attrezzature dedicate dall'estetica ricercata.

The Senzafine system is complemented by a series of elements designed to enhance the wardrobe area, both visually and functionally. The vanity unit and open modules with boiserie create niches for personal care. Daytime open units break up the sequence of closed wardrobes with dedicated fittings and refined detailing.

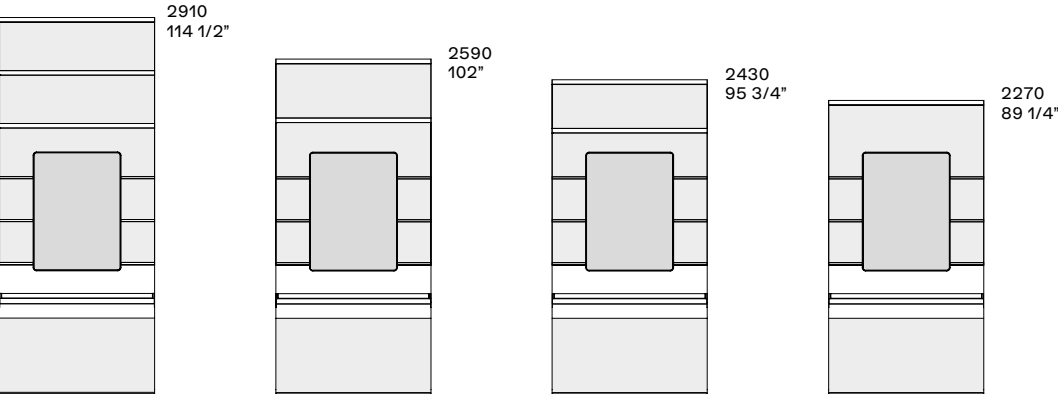

ELEMENTO VANITY
VANITY TALL UNIT

Elemento Vanity da posizionare tra due armadi (battente e complanare) con fianco laterale accoppiato. VANITY CODE - CODE DISPLAY UNIT
SOLUZIONI A GIORNO - OPEN UNIT SOLUTIONS

I pannelli boiserie Surface, attrezzati e inseriti tra due armadi, consentono di creare infinite soluzioni di colonne a giorno. I pannelli boiserie devono essere completati con un coperchio superiore, con e senza luce a led. Coperchio superiore, spessore 60 e larghezza da 604 a 2704, disponibile in essenza, laccato opaco, laccato lucido e laccato metallico.

Surface wall panelling with equipment and inserted between two wardrobes, allows to create endless solutions with open units. The wall panelling must be completed with a top cover, with or without LED lighting. Top cover, thickness 2 1/4" and width from 23 3/4" to 106 1/2", available in wood, mat lacquer, glossy lacquer, and metal lacquer.

Vanity Code

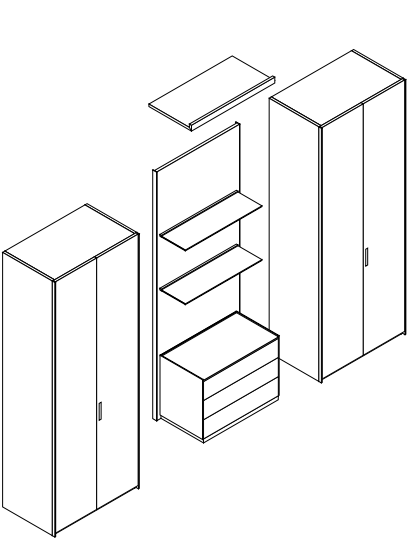

I pannelli boiserie Surface (escluso finitura specchio) possono essere attrezzati con mensole, contenitori sospesi, contenitori a terra e mensoloni del sistema giorno Code; specchi Drop, Circle e Audrey, tappo passacavi, canalina passacavi e modulo di cablaggio per una presa elettrica o due prese usb.

Surface wall panelling (except mirror finishing) can be equipped with shelves, hanging units, floorstanding storage units and thick shelves of the Code system; Drop, Circle and Audrey mirrors, cable cover, cable duct and wiring module for one electrical socket or two USB sockets.

Code Display unit

ATTREZZATURA SUITE SUITE EQUIPMENT

L'attrezzatura Suite è caratterizzata da finiture pregiate ed estetica ricercata. Dagli accessori rivestiti in tecnocover alle cassettiere con frontali e coperchi in vetro, gli elementi funzionali si trasformano così in dettagli eleganti, capaci di elevare l'interno di armadi e cabine armadio rendendolo al contempo organizzato e prezioso.

Suite fittings stand out for their premium finishes and refined design. From accessories upholstered in Tecnocover to drawer units with glass fronts and lids, functional elements become elegant details that elevate the interior of wardrobes and walk-in closets while keeping everything organised and sophisticated.

ATTREZZATURA ESSENTIAL ESSENTIAL EQUIPMENT

Dentro l'armadio e la cabina armadio lo spazio è organizzato secondo criteri di razionalità. Grazie a ripiani, vassoi, cassettiere e attrezzature dedicate ogni capo trova la sua collocazione ideale, appeso o ripiegato, sempre in perfetto ordine.

Inside the wardrobe and walk-in closet, space is organised for clarity and efficiency. Shelves, trays, drawer units and dedicated fittings ensure every garment is neatly arranged, whether hung or folded.

ILLUMINAZIONE E SANIFICAZIONE
LIGHTING AND SANITIZATION

Per assicurare la migliore esperienza d'uso, armadi e cabine armadio integrano diversi sistemi di illuminazione, da installare sia orizzontalmente su coperchi e ripiani sia verticalmente sui fianchi. Il sanificatore d'aria è un dispositivo che movimentata l'aria all'interno dell'armadio e neutralizza odori e batteri, favorendo la sanificazione dei capi.

To ensure the best user experience, wardrobes and walk-in closets can integrate a range of lighting systems, installed horizontally on lids and shelves or vertically along the sides. The air sanitiser circulates air inside the wardrobe and neutralises odours and bacteria, helping keep garments fresh and clean.

SISTEMA DI ILLUMINAZIONE
LIGHTING SYSTEM

Lampade a led per ripiani con canalina
verticale elettrificata

Led lamps for shelves with vertical
electrified channel

Lampade a led a gradazione calda 3000°K, 110V o 220V complete di alimentatore e cablaggio per il collegamento. Disponibili per tutte le tipologie e lunghezze dei ripiani, anche per terminale doppio e per angoli. Sono possibili riduzioni in larghezza. Gli alimentatori sono posizionati sul coperchio della prima colonna a sinistra. La canalina verticale elettrificata è necessaria per l'inserimento delle lampade led nei ripiani e ripiani porta scarpe inclinati. La canalina verticale, in colore basalto, è posizionata sul fondo del fianco destro. L' inserimento di un sensore volumetrico posizionato sul coperchio consente l'accensione all'apertura delle ante. Per le cabine armadio, vedi schemi di realizzazione impianto nella pagina a fianco.

Led lamps with warm temperature 3000°K, 110V or 220V complete with power supply and cables for connection. Available for all the shelf typologies and lengths, also for double end unit and corner unit. Customizations in width are possible. The power supplies are positioned on the top of the first unit on the left. The vertical electrified channel is needed for lighted shelves and for inclined shoe shelves. The vertical channel, in colour basalto, is positioned on the right side panel.

A motion sensor positioned on the top allows the lighting by opening the doors. For walk-in closets, see plant realization schemes on the next page.

Lampade a led solo per coperchio senza
canalina verticale elettrificata

Led lamps only for top shelf without
electrified channel

L'inserimento delle lampade a led solo nel coperchio non prevede la canalina verticale. Senza canalina verticale viene esclusa la possibilità di inserire successivamente lampade led nei ripiani.

The use of led lamps only for the top shelf does not need the vertical channel. Without vertical channel more shelves with led lamps cannot be added later.

In presenza di schienali vetro è possibile inserire lampade a led solo nei ripiani vetro o ripiani tecnocover grain con telaio.

In case of glass back panels led lamps are available only for glass shelves or tecnocover grain shelves with frame.

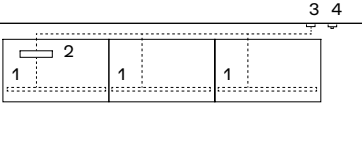

Kit radiocomando opzionale

Radiocomando completo di alimentatore dedicato, potenza 250W. L'utilizzo del kit è consigliato quando non è possibile cablare l'accensione delle luci con una presa comandata. Il radiocomando è dotato di un supporto per eventuale fissaggio a muro.

- 1 Lampade
- 2 Alimentatore posizionato nel coperchio del primo vano a sinistra
- 3 Presa comandata
- 4 Interruttore accensione indipendente se cabina armadio doppia
- 5 Centralina radiocomando
- 6 Presa
- 7 Radiocomando
- 8 Radiocomando per accensione simultanea di 2 cabine armadio. Ogni cabina armadio deve essere munita di alimentatore.

Senza radiocomando
Without remote control kit

cabina armadio singola
single walk-in closet

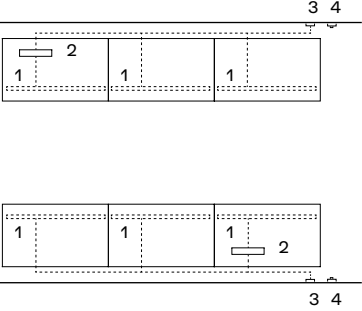

Optional remote control kit

Remote control complete with dedicated power supply, 250W power. Remote control kit is suggested when the lighting system cannot be linked to the room electrical system. The remote control is equipped with a support for possible wall fixing.

- 1 Lamps
- 2 Power-supply placed at the top of the first unit on the left
- 3 Controlled socket
- 4 Independent switch for double walk-in closet
- 5 Remot control unit
- 6 Socket
- 7 Remote control kit
- 8 Simultaneous switch for 2 walk-in closets. Each walk-in closet must be equipped with a power supply.

SANIFICATORE D'ARIA
AIR SANITIZER

Dispositivo di sanificazione

Il sanificatore è inseribile in tutte le tipologie di ripiani dell'attrezzatura Essential e Suite e nei coperchi delle cassettiere solo con attrezzatura Essential.
In alluminio verniciato opaco con lunghezza pari al ripiano (escluso l 377), Integrato nel sistema di elettrificazione, necessita obbligatoriamente l'uso della canalina elettrificata e del sensore.
Azionabile con radiocomando e disattivabile con interruttore posto sul fondo.
Il sistema prevede un trattamento dell'aria diviso in tre stadi. Nel primo stadio il filtro catalizzato, rigenerabile e lavabile in lavastoviglie, trattiene parte dei batteri presenti nell'aria. Nel secondo il led UVA neutralizza quanto è stato trattenuto dal filtro. Nel terzo, la tecnologia di ionizzazione bipolare produce milioni di ioni positivi e negativi che aggrediscono e distruggono batteri e odori.

Air sanitizer device

The sanitizer can be inserted into all types of shelves of the Essential and Suite equipment and in the tops of the chests of drawers only with Essential equipment.
Made of mat painted aluminium with a length equal to the shelf (except for w 14 3/4"), integrated into the electrification system, it requires the use of the electrified channel and sensor. It can be operated by remote control and deactivated by a switch located at the bottom.
The system provides three-stage air treatment. In the first stage, the catalyzed filter, which is regenerable and dishwasher-safe, retains some of the bacteria present in the air. In the second stage, the UVA LED neutralizes what has been retained by the filter. In the third stage, bipolar ionization technology produces millions of positive and negative ions that attack and destroy bacteria and odours.

Sanificatore con attrezzatura Essential
Air sanitizer with Essential equipment

Sanificatore disponibile per i ripiani, legno, vetro e tecnocover grain.
Air sanitizer available for wooden, glass and tecnocover grain shelves.

Con fianchi legno centrali è necessario inserire un sanificatore per ogni colonna.
Con fianchi telaio centrali il sanificatore può sanificare fino a 3 colonne l 1263. Non è possibile l'inserimento di più sanificatori all'interno della stessa colonna.

With central wooden sides, a sanitizer must be inserted for each column.
With central frame sides, the sanitizer can sanitize up to 3 columns w 49 3/4. It is not possible to insert more than one sanitizer in the same column.

Radiocomando

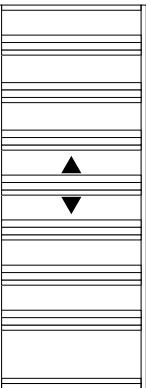

Per azionare il dispositivo di sanificazione e per l'impostazione dei tre programmi, 3, 6 o 9 ore. Lo stesso radiocomando può essere utilizzato per uno o più dispositivi.

Remote control

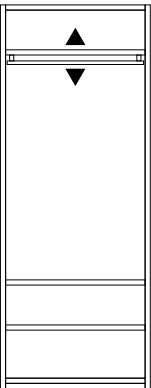

To activate the sanitizer device and to select the programmes, 3, 6 or 9 hours. The same remote control can be used for one or more devices.
