

NIGHT SYSTEMS TECHNICAL

LEXINGTON

Poliform

Poliform

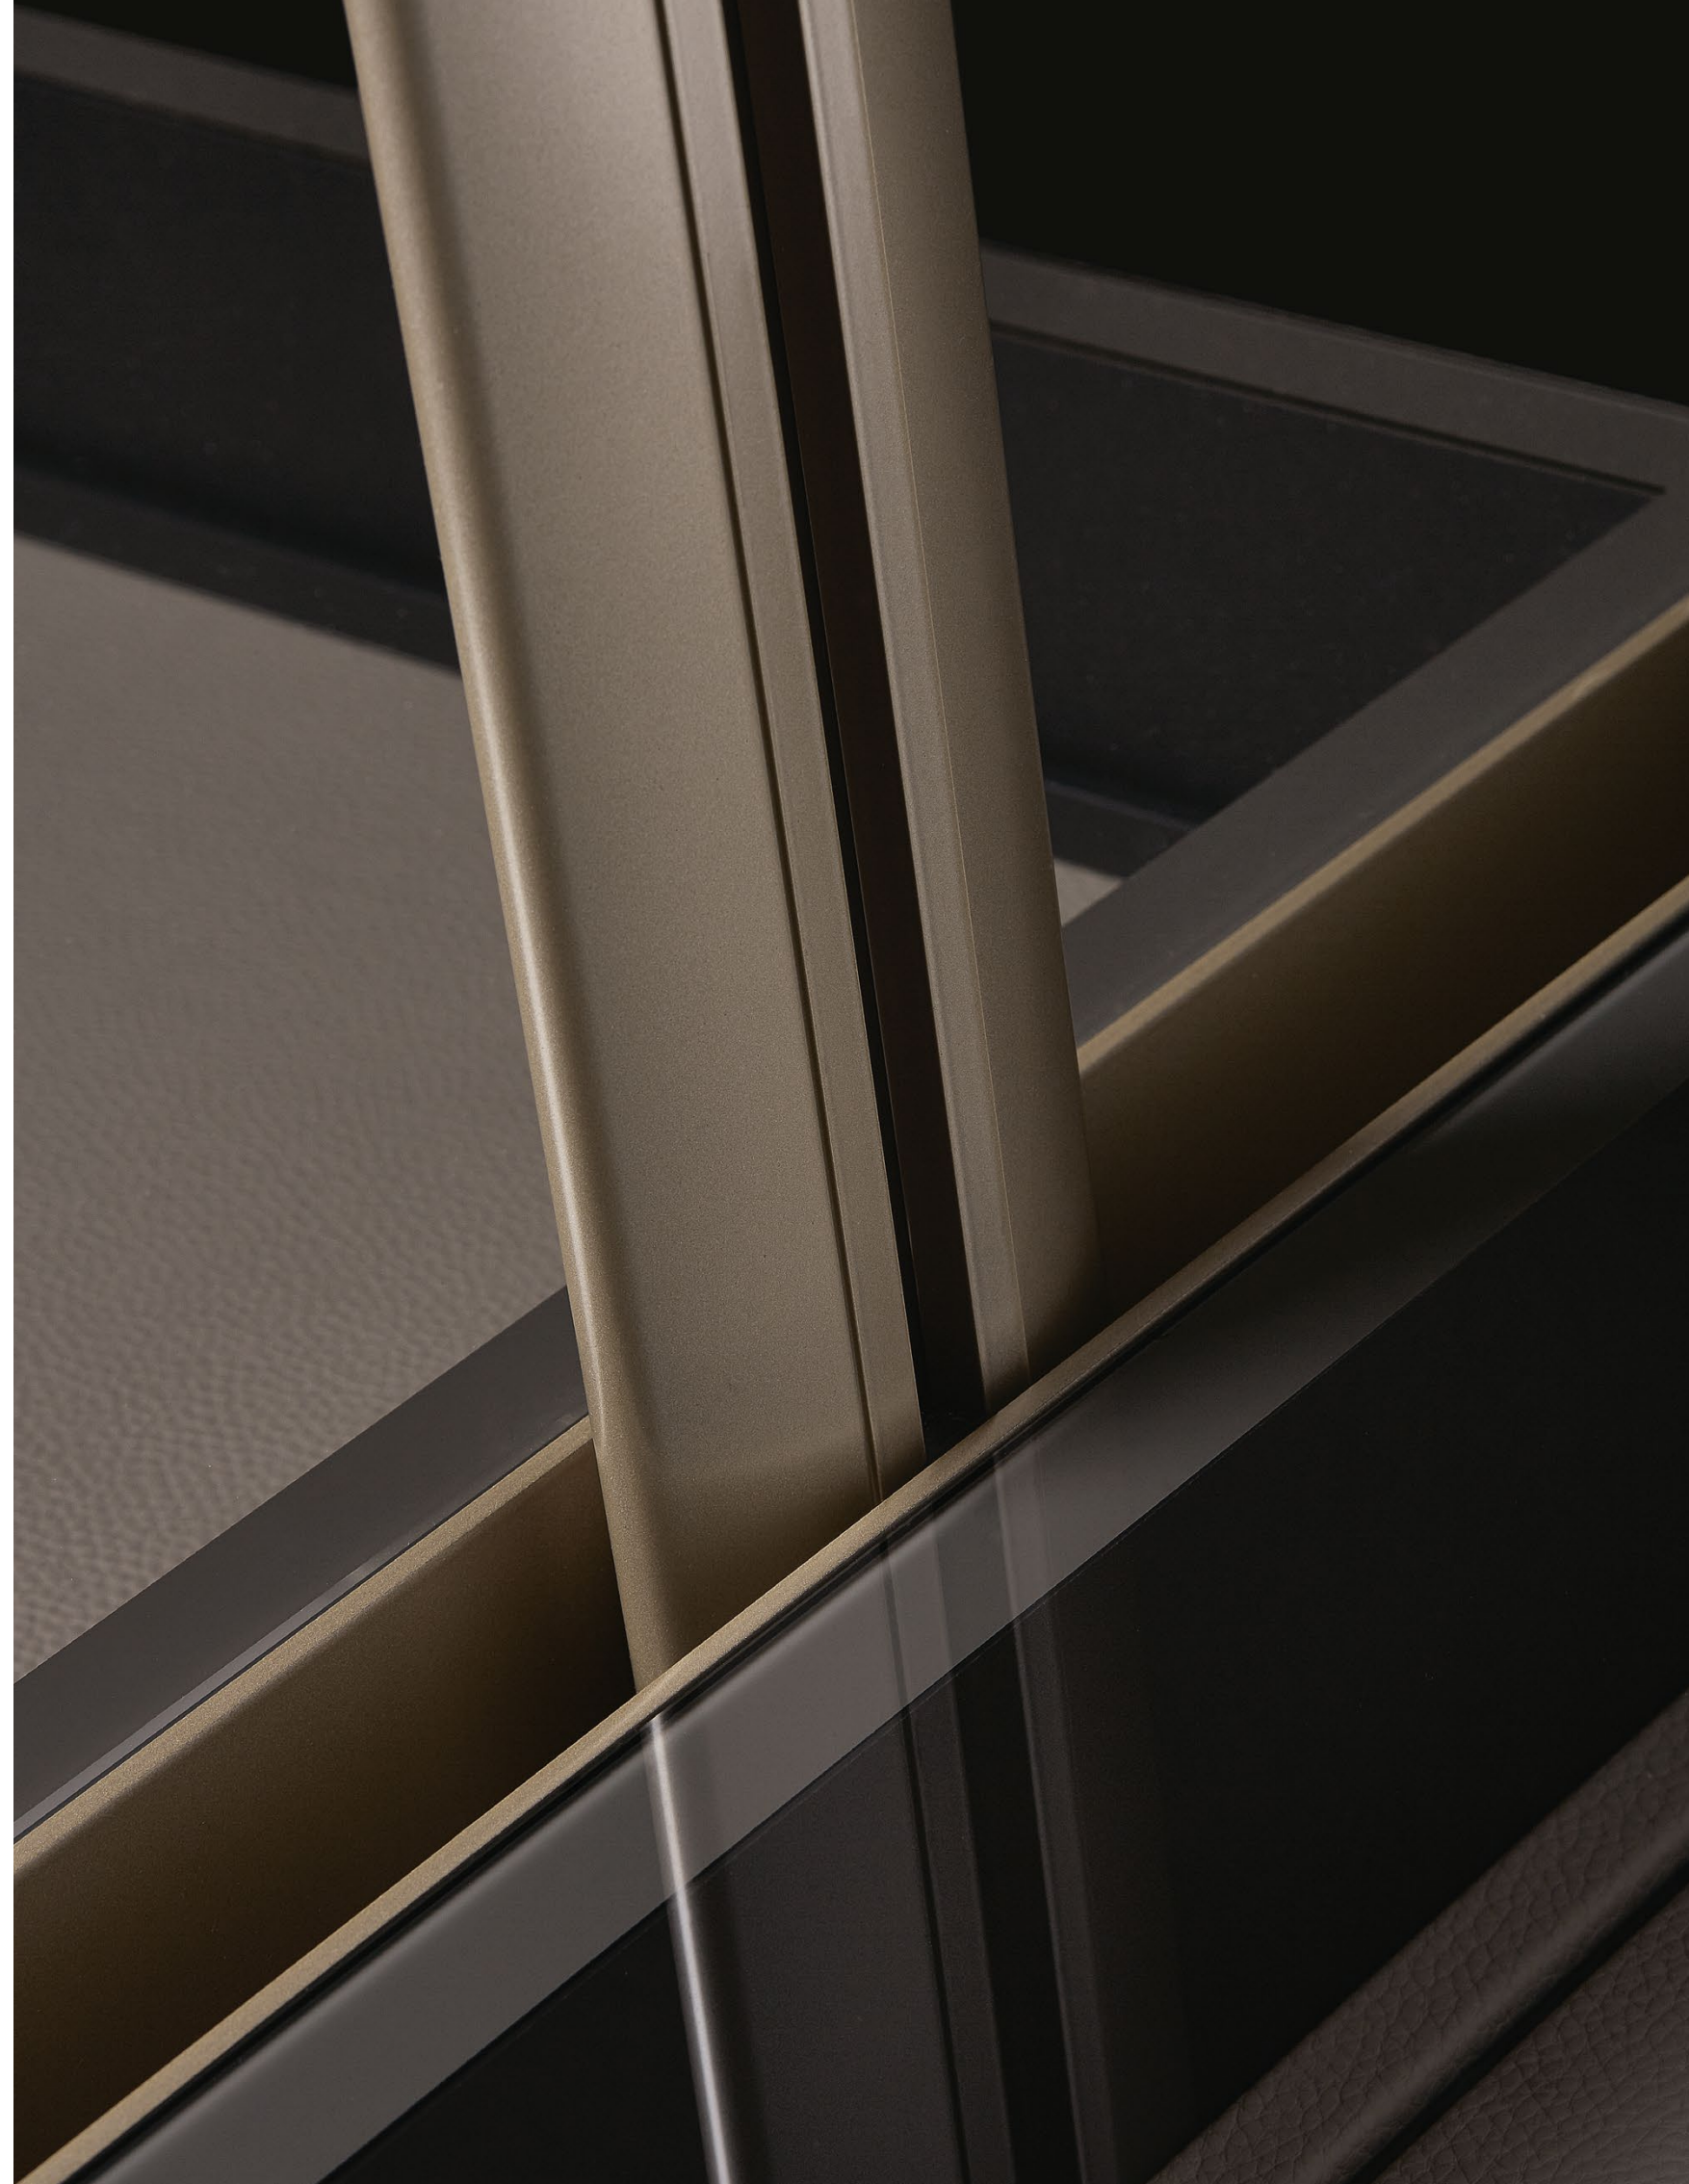

I cataloghi della serie tecnica sono un compendio dell'universo progettuale di Poliform. Mostrano nel dettaglio tutte le possibilità compositive e stilistiche offerte dai sistemi attraverso la descrizione delle componenti strutturali, dell'attrezzatura disponibile e dell'infinita varietà di finiture. Elementi che combinati tra loro realizzano proposte complete dove la libertà di progettare è totale.

The catalogues in the technical series are a compendium of the Poliform design universe. They give a detailed view of all the compositional and stylistic possibilities offered by the systems through the description of the structural components, available equipment and infinite variety of finishes. Elements that, when combined, create complete solutions with a free rein for design.

LEXINGTON

Lexington è un sistema notte dalla forte connotazione architettonica. Progettato dal dipartimento R&D Poliform, è caratterizzato dai montanti, cui si agganciano ripiani, cassettiere e altre attrezzature per creare cabine armadio dall'estetica leggera e contemporanea. Per l'infinita flessibilità in termini di dimensioni, contesti d'uso e finiture, Lexington segna un'evoluzione nel mondo dei sistemi, nell'ottica di un'integrazione totale tra i diversi ambienti della casa.

Lexington night system has strong architectural connotations. It is designed by Poliform's R&D department and is characterized by uprights, onto which shelves, drawers and other components can be fitted to create walk-in closet systems featuring a light and contemporary aesthetic. Thanks to its unlimited flexibility in terms of size, functions and finishes, Lexington marks an evolution in the world of furniture systems, in the direction of total integration of the different areas of the home.

MODULARITÀ
MODULARITY

Altezze e posizionamenti ripiani
Heights and shelves positioning

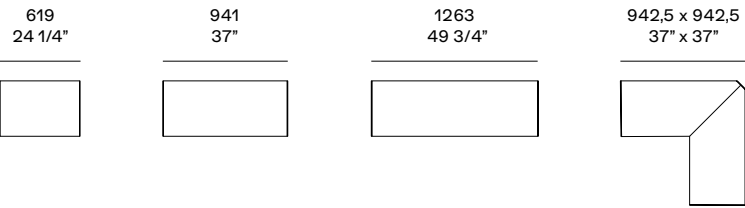

Calcolo dimensioni

Per ottenere la larghezza totale, aggiungere alla somma delle larghezze dei ripiani mm 55 relativi al montante iniziale, mm 50 per ogni montante centrale e mm 55 relativi al montante terminale. Tutte le composizioni vengono realizzate su misura in altezza, fino ad un massimo di 3150. L'altezza del ripiano inferiore non può essere meno di mm 240 da terra, il ripiano superiore non può essere a meno di mm 200 dal soffitto/fine del montante. Possibilità di composizioni ad angolo e a misura in larghezza, grazie al taglio a misura previsto su tutte le attrezzature del sistema ad esclusione dell'elemento cassettiera a vetrina.

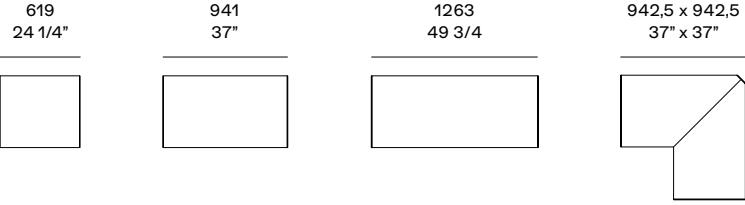

Calculating dimensions

To obtain the total width, sum up the widths of the shelves with 2 1/4" of the starting upright, 2" for each central upright and 2 1/4" of the terminal upright. All compositions are made to measure in height, up to a maximum of 124". The height of the lower shelf cannot be lower than 9 1/2" from the floor, the upper shelf cannot be lower than 7 3/4" from the ceiling/end of the upright. Possibility of corner compositions made to measure in width, thanks to the custom cut foreseen for all the equipment of the system, except the showcase chest of drawers.

Ripiani - profondità mm 400 - spessore mm 35
Shelves - depth 15 3/4" - thickness 1 1/2"

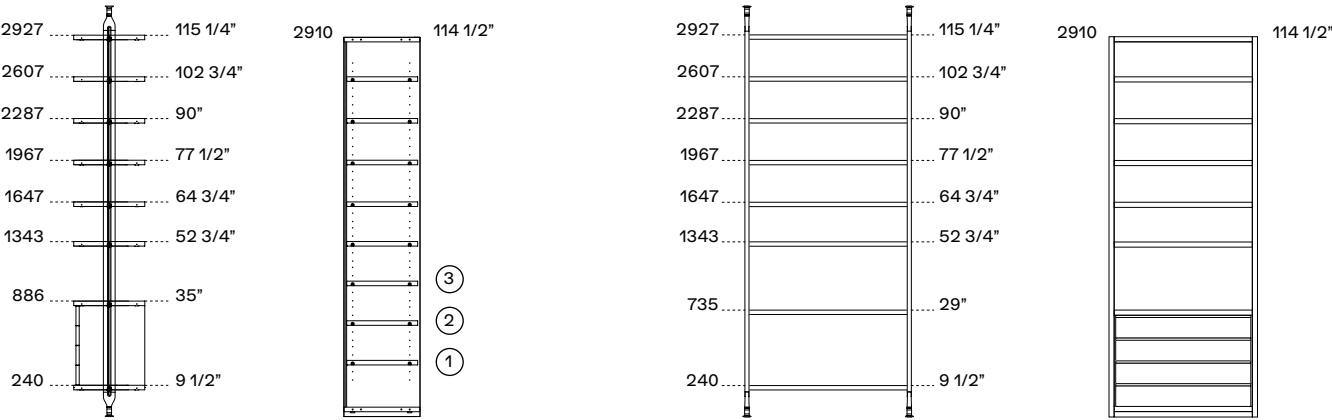

Ripiani - profondità mm 545 - spessore mm 35
Shelves - depth 21 1/2" - thickness 1 1/2"

Lexington allineamenti con Senzafine
Negli schemi vengono riportati i posizionamenti dei ripiani in allineamento ad un armadio Senzafine.

Lexington in combination with Senzafine
The diagrams show the heights of the shelves in alignment with a Senzafine wardrobe.

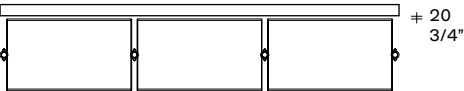

In presenza di cassettiera Lexington in appoggio i ripiani Senzafine 1 - 2 - 3 non saranno mai allineati. Per allinearli è necessaria una foratura personalizzata sull'armadio Senzafine.

In case of a Lexington chest of drawers placed on a shelf, Senzafine shelves 1, 2 and 3 will never be aligned. To align them, the Senzafine wardrobe will need a personalized drilling.

SOLUZIONI COMPOSITE MONTANTI A SOFFITTO
DESIGN SOLUTIONS WITH FLOOR-CEILING UPRIGHTS

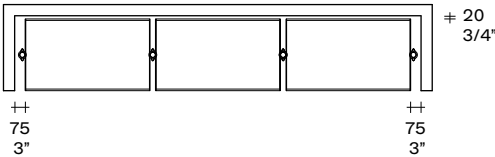

Composizione lineare

Spazio necessario per il montaggio:
in profondità minimo 20 mm dal ripiano,
in larghezza minimo 75 mm dal ripiano.

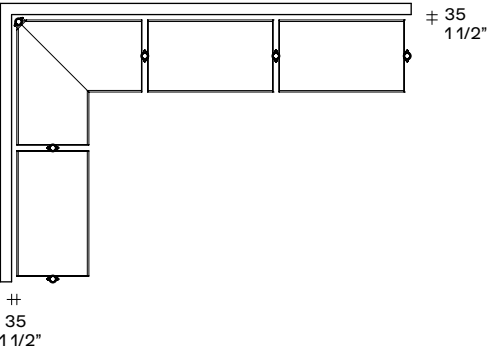

Linear composition

Space required for installation: a minimum
of 3/4" from the shelf at the back, and a
minimum of 3" from the shelf at the sides.

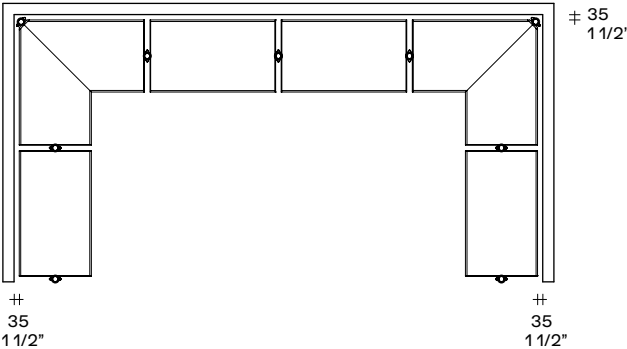

Composizioni ad angolo
con ripiani angolari

Spazio necessario per il montaggio:
in profondità minimo 35 mm dal ripiano.

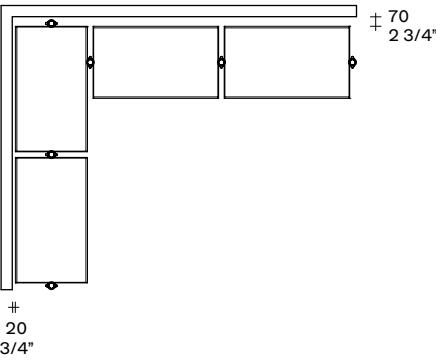

Corner compositions with
corner shelves

Space required for installation: a minimum
of 1 1/2" from the shelf at the back.

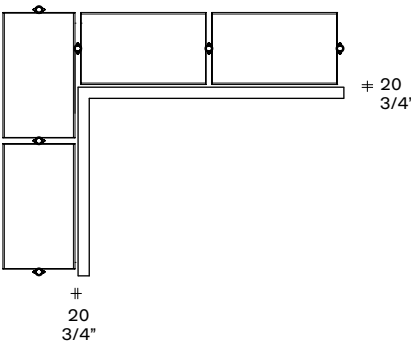

Composizioni ad angolo
con ripiani lineari

Spazio necessario per il montaggio:
in profondità minimo 20 e 70 mm dal
ripiano.

Corner compositions with
linear shelves

Space required for installation: a minimum
of 3/4" and 2 3/4" from the shelf at the back.

ripiano.

Corner compositions with
linear shelves

Space required for installation: a minimum
of 3/4" and 3 1/4" from the shelf at the back.

STRUTTURA STRUCTURE

Il sistema Lexington è disponibile in due configurazioni: con montanti a parete oppure a soffitto. La combinazione di montanti e ripiani dà vita a soluzioni lineari e ad angolo su misura, dove la personalizzazione è massima anche grazie alla possibilità di agganciare i ripiani e gli altri accessori all'altezza desiderata.

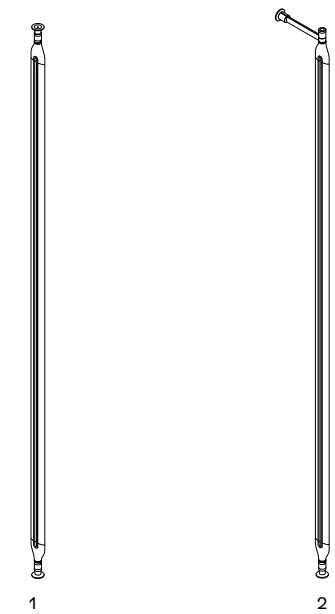

The Lexington system is available in two configurations: wall-mounted and floor-to-ceiling. The combination of uprights and shelves creates custom-made linear and corner solutions, where customisation is also maximized with the possibility of installing shelves and other accessories at the desired height.

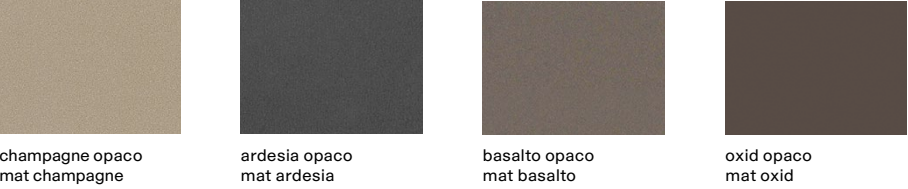

MONTANTI
UPRIGHTS

- 1 Montanti a soffitto**
Spessore 32. Disponibili anche nella versione elettrificati con canalina. La canalina permette l'inserimento delle lampade nei ripiani e l'attivazione della luce nella cassettera a vetrina. Verniciato opaco colori, piedini di regolazione in tinta.
- 2 Montanti a parete**
Spessore 32. Disponibili anche nella versione elettrificati con canalina. La canalina permette l'inserimento delle lampade nei ripiani e l'attivazione della luce nella cassettera a vetrina. Verniciato opaco colori, piedini di regolazione in tinta.

- 1 Floor-ceiling uprights**
Thickness 1 1/4". Available also in the electrified version with channel. The light channel allows lamps to be fitted into the shelves and the light in the display chest of drawers to be switched on. Mat painted colours, adjustable feet in matching colours.
- 2 Wall-mounted uprights**
Thickness 1 1/4". Available also in the electrified version with channel. The light channel allows lamps to be fitted into the shelves and the light in the display chest of drawers to be switched on. Mat painted colours, adjustable feet in matching colours.

ATTREZZATURA ESSENTIAL ESSENTIAL EQUIPMENT

Ai montanti si agganciano attrezzature e componenti interni. La gamma di finiture dei singoli elementi è molto ampia, dal tecnocover che riveste i ripiani al vetro della cassetteria. Ripiani e attrezzature sono finiti anche sul retro, per facilitare la progettazione di configurazioni centro stanza.

Equipment and internal components attach to the uprights. Individual elements are available in a wide range of finishes, from tecnocover for the shelves to glass for the drawer unit. Shelves and equipment are also finished at the back, allowing the system to be installed in the centre of the room.

ILLUMINAZIONE LIGHTING

Lexington è predisposto per integrare un sistema di illuminazione attraverso l'elettrificazione dei montanti. Le lampade a led seguono il profilo orizzontale di ripiani e cassettiere, diffondendo una luce calda all'interno della cabina armadio.

Lexington is designed to accommodate an integrated lighting system, with power supplied through the uprights. Led lights follow the horizontal lines of the shelves, casting a warm glow throughout the walk-in closet.

SISTEMA DI ILLUMINAZIONE
LIGHTING SYSTEM

Lampade a led per ripiani legno o vetro
Led lamps for wooden or glass shelves

Lampade a led a gradazione calda 3000°K, 110V o 220V complete di alimentatore e cablaggio per il collegamento. Disponibili in tutte le lunghezze dei ripiani e per angolo, dove si prevedono due lampade.
Lampade utilizzabili esclusivamente con montante di destra elettrificato, necessario per il funzionamento delle lampade nei ripiani e nei ripiani porta scarpe inclinati. L'alimentatore è posizionato sotto al primo ripiano (h 240 mm, filo sopra da terra) partendo da sinistra. Al fine di consentire il passaggio dei cavi, in ogni colonna con lampade deve essere collocato un ripiano (esclusivamente nobilitato o tecnocover) ad un'altezza di 240 mm da terra. Warm-toned 3000°K LED lamps, 110V or 220V, complete with power supply and wiring for connection. Available in all shelf lengths and for corner units, where two lamps are required. Lamps for use exclusively with an electrified right-hand upright; this is required for the lamps to operate on the shelves and on the inclined shoe shelves. The power supply unit is positioned below the first shelf (at 240 mm high, measured from the floor to the top edge of the shelf), starting from the left. To allow cable passage, a shelf (exclusively in melamine or tecnocover) must be fitted in each column containing lamps at a height of 240 mm from the floor.

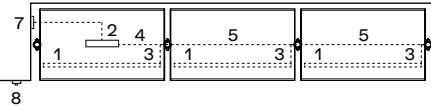

Kit radiocomando opzionale

Radiocomando completo di alimentatore dedicato, potenza 250W.
L'utilizzo del kit è consigliato quando non è possibile cablare l'accensione delle luci con una presa comandata.
Il radiocomando è dotato di un supporto per eventuale fissaggio a muro.

- 1 Lampade
- 2 Alimentatore
- 3 Canalina elettrificata
- 4 Adattatore alimentatore
- 5 Prolunga
- 6 Prolunga alimentatore
- 7 Punto luce a parete, presa comandata
- 8 Interruttore accensione indipendente se cabina armadio doppia centralina
- 9 Centralina
- 10 Punto luce a parete
- 11 Punto luce a pavimento
- 12 Radiocomando
- 13 Radiocomando per accensione simultanea di 2 cabine armadio. Ogni cabina armadio deve essere munita di centralina

Senza radiocomando
Without remote control kit

cabina armadio singola
single walk-in closet

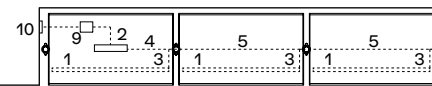

Optional remote control kit

Remote control complete with dedicated power supply, 250W power.
Remote control kit is suggested when the lighting system cannot be linked to the room electrical system.
The remote control is arranged with support for wall fixing.

- 1 Lamps
- 2 Power-supply
- 3 Electrified channel
- 4 Power supply adapter
- 5 Extension cable
- 6 Power supply extension cable
- 7 Wall electrical socket, controlled socket
- 8 Independent power switch if the walk-in wardrobe has a dual control unit
- 9 Remote control unit
- 10 Wall electrical socket
- 11 Floor electrical socket
- 12 Remote control
- 13 Simultaneous switch for 2 walk-in closets. Every walk-in closet must have its own control unit

Con radiocomando
With remote control kit

cabina armadio doppia
double walk-in closet
